Secretary of Higher Education

The Maryland Higher Education Commission is an equal
educational opportunity/affirmative action employer.

INTRODUCTION

The 1994 edition of the inventory of Academic Programs reflects all approved instructional programs leading to a degree or other formal award offered by Maryland public and independent institutions of higher education. It is current as of January 1994.

Teacher certification programs, which do not result in the award of an education degree, are not included in the inventory. Also not included are other programs which require credits to be transferred to another institution for the award of a degree or certificate in the desired field of study.

The instructional programs have been classified according to a Maryland modified version of the Higher Education General Information Survey (HEGIS) Taxonomy. In many instances programs have been further classified through assignment of a suffix in order to provide a more detailed classification while keeping the uniformity necessary for planning and research purposes.

Section I of this publication presents a listing of academic programs for each institution. Programs within an institution are grouped by degree level and are listed according to the HEGIS Taxonomy within each level. Areas of concentration offered within instructional programs are also listed following the programs with which they are associated.

Section II contains the academic programs classified according to field of study. Institutions offering programs within each field are listed in this section as is the appropriate degree or other formal award.

Degree and award names have been abbreviated as follows throughout this inventory:

- LDC - Lower Division Certificate
- A - Associate Degree
- UDC - Upper Division Certificate
- B - Bachelor's Degree
- PBC - Post-Baccalaureate Certificate
- M - Master's Degree
- CAS - Certificate of Advanced Study
- D - Doctoral Degree
- FP - First-Professional Degree
- FPC - First-Professional Certificate

Definition and credit hour requirements for each of the certificates and degrees are as follows:

Lower Division Certificate - awarded for successful completion of a minimum of 12 semester credit hours at the freshman or sophomore levels, or both.

Associate Degree - awarded for successful completion of a program of 60 or 70 undergraduate semester credit hours.

Upper Division Certificate - awarded for successful completion of 12 semester credit hours at the junior or senior levels, or both.

Bachelor's Degree - awarded for successful completion of a program of 120 or more undergraduate semester credit hours.

Post-Baccalaureate Certificate - awarded for successful completion of 12 semester credit hours of college-level work, the majority of which are at the master's level.

Master's Degree - awarded for successful completion of at least 30 semester credit hours of graduate-level courses.

Certificate of Advanced Study - awarded for successful completion of 30 semester credit hours of college-level work beyond the master's degree.

Doctoral Degree - awarded for successful completion of at least two years of study beyond the master's level, including completion of an original thesis or dissertation.

First-Professional Degree - awarded for successful completion of all institutional requirements for becoming a practitioner in a field such as law, medicine, dentistry, pharmacy, theology, and nursing.

First-Professional Certificate - awarded for successful completion of the required number of courses by the appropriate national professional association.
